

**EXHIBIT 4 TO PETERS DECLARATION**

Axanar

Go see Star Trek Beyond! It is a great movie, real Star Trek and a whole lot of fun. A whole bunch of us got to go to the Premier here at SDCC last night and I can tell you, we ALL loved it!

And while many of you are pissed off about the lawsuit (so are we!), and many of you have said you will boycott everything CBS/Paramount (and we appreciate your support!), we prefer that we all share in the love of Star Trek and celebrate the 50th anniversary of our beloved show.

JJ Abrams and Justin Lin have showed their support for Axanar and we need to show them ours.

Thank you!

Alec
